TAKE YOUR FAMILY PRACTICE TO A NEW LEVEL

IMPROVE PRIMARY CARE IN YOUR COMMUNITY

The Patient's Medical Home (PMH) vision ensures that physicians and their teams are supported and enabled to provide patient-centred care that is collaborative, compassionate, and seamlessly connected across the health care system.

HOME

PRINCIPLES OF THE NEW VISION

PMH 2019 describes a series of principles that, when applied, allow practices to provide the care their patients need:

- Interprofessional collaboration
- Connectivity to the community and the health care system
- Accessibility and continuity of care
- Ongoing quality improvement
- Advocacy for robust support through funding and infrastructure

A VISION THAT WORKS

The benefits of the PMH vision are well researched and documented:

- Greater patient and provider satisfaction
- Fewer avoidable emergency department visits
- Improved treatment adherence and preventive care
- Better continuity and coordination of care
- Improved care utilization without an increase in cost

A VISION THAT SUPPORTS YOUR TEAM

Visit patientsmedicalhome.ca to access a series of helpful materials to align your practice with PMH 2019!

- Interactive self-assessment tool
- Province-specific PMH Implementation Kits
- Best Advice guides on a variety of topics
- Contacts of PMH champions in your province
- Expanded list of supportive evidence

The Patient's Medical Home is a vision created by the College of Family Physicians of Canada (CFPC). The CFPC represents more than 38,000 members. It is the national professional organization responsible for establishing standards for the training, certification, and lifelong education of family physicians and it is the voice of family medicine in Canada.

Contact us at healthpolicy@cfpc.ca with questions and comments.
